

Yuhao Zhang
yuhao.zhang25@ic.ac.uk | github.com/yzhanglp | yzhanglp.com

Research Interests

Machine learning, computer graphics, and 3D vision, with a focus on **representation learning, generative models, articulated motion, and geometric learning.**

Education

Imperial College London	Oct 2025 – Oct 2029 (Expected)
PhD in Computer Science	
Advised by Prof. Gerard Pons-Moll and Prof. Tolga Birdal	
Stanford University	Jun 2024 – Sep 2024
Summer Research Internship	
Advised by Prof. Jiajun Wu and Dr. Shangzhe Wu	
Hong Kong University of Science and Technology (HKUST)	Sep 2021 – Jun 2025
BSc in Computer Science & Mathematics, First Class Honors	
National University of Singapore (NUS)	Jan 2024 – May 2024
Spring Exchange, Computer Science	

Publications

* Equal contribution; equal-contribution authors are listed alphabetically.	
<u>SAMoR: Motion Modelling for Articulated Objects of Any Skeleton and Topology</u>	NeurIPS 2026
Yuhao Zhang, Gerard Pons-Moll, Tolga Birdal	
<u>Anymate: A Dataset and Baselines for Learning 3D Object Rigging</u>	SIGGRAPH 2025
Yufan Deng*, Yuhao Zhang*, Chen Geng, Shangzhe Wu, Jiajun Wu	
<u>DragVideo: Interactive Drag-style Video Editing</u>	ECCV 2024
Yufan Deng*, Ruida Wang*, Yuhao Zhang*, Chi-Keung Tang, Yu-Wing Tai	

Selected Coursework

Mathematics: Advanced Probability Theory I (A+); Honors Probability (A+); Numerical Analysis (A+); Honors Calculus II (A+); Honors Real Analysis (A); Honors Linear and Abstract Algebra I (A); Multivariable Calculus (A)

Computer Science: Machine Learning (A+); Design and Analysis of Algorithms (A+); Honors Discrete Mathematical (A+)

Honors & Awards

Chern Class Talent Scholarship – Prestigious Award (Highest Tier)	HKUST Mathematics
UKRI-funded PhD Studentship	Imperial College London
Best Final Year Project & Best FYP Demo Award	HKUST CSE, 2024–2025
First Prize, Chinese High School Mathematics League	Provincial Level
First Prize, Chinese High School Physics Olympiad	Provincial Level

Academic Service

Reviewer: NeurIPS 2026; TPAMI; TMC

Additional Research Experience

Research Intern, Statistical Machine Learning Lab, HKUST	Feb 2023 – June 2023
Advised by Prof. Tong Zhang; contributed to LLM-FT , a codebase for large language model fine-tuning and inference, and processed large-scale academic data for model training	

Technical Skills

Programming: Python, C++, Java

Machine Learning / Scientific Computing: PyTorch, NumPy, SciPy, pandas

Tools: Linux, Git, LaTeX, Typst, Blender

Languages: Mandarin Chinese (Native), English (Fluent)
